

Tenant to Tenant Migration

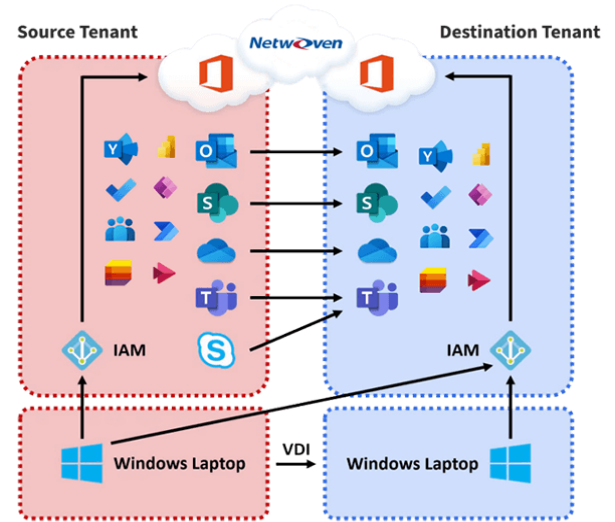

With over a decade of migration expertise, we streamline cloud transitions through refined strategy, advanced tooling, and proven processes - ensuring cost efficiency and uninterrupted business operations.

What we offer

Our migration solutions are designed to simplify complex M&A and divestiture scenarios, reducing disruption, maintaining productivity, and ensuring data integrity throughout the transition.

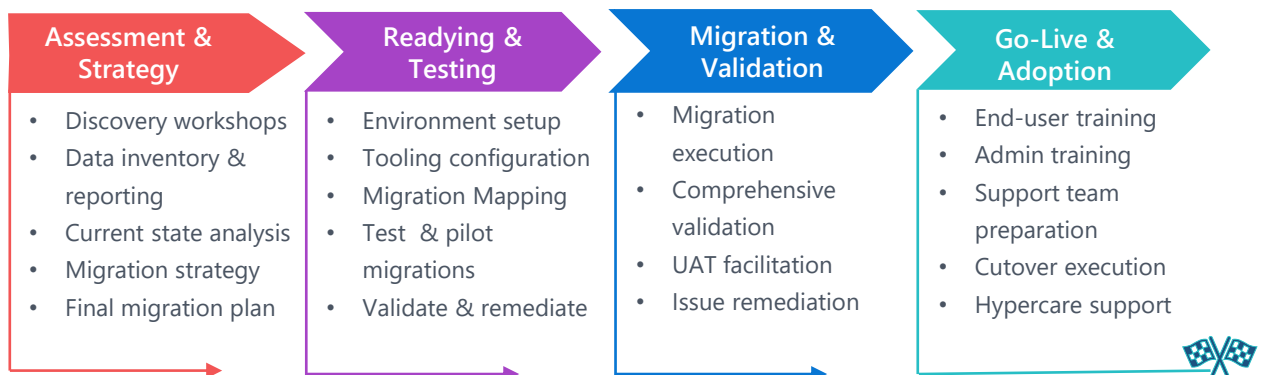

- ✓ **Migration Strategy & Tooling**
10+ years of refinement and optimization in migration design, process, tooling and supporting migration scripts / applications to streamline costs & maximize fidelity.
- ✓ **Maximize Business Continuity**
Templatized communication & training plans, Help Center template, AI support agents, and migration helper applications / scripts to minimize any interruption to business continuity.
- ✓ **All Workloads - One Vendor**
We provide comprehensive migration services for almost every Microsoft Cloud workload (M365, D365 & Azure) and others (Slack, Jive, Box, Google, Zoom, WebEx,...)

The Netwoven approach

The Phases

Accelerators / Differentiators

- ✓ We provide an expert service, not just a product – ensuring the success of your migration.
- ✓ We migrate Entra, devices, Intune, ExO, SPO, OD, Teams, Viva Engage, Power Platform, Purview, Dynamics 365 and much more
- ✓ Comprehensive Power BI reports & analysis to enable smart decisions.
- ✓ Pre-built migration support applications for migration mapping, UAT & issue tracking, device cutovers & more.
- ✓ Heavily scripted inventory and migration steps to ensure consistency and efficiency in scalability for optimized large migrations.
- ✓ AI-enabled and templated Help Center & weekend cutovers for optimal business continuity, reduced cutover support load and reduction in transitional friction.
- ✓ Optional services available for extended information architecture, adoption & change management, security, governance, compliance, Hypercare support and more.

Let's Get Started

Request a quick questionnaire to receive a personalized cost and timeline estimate for your transition. No guesswork—just clarity.

What our customers are saying

Kaleris sought a Microsoft technology specialist with deep migration expertise for both Microsoft and Google workloads, as well as strong adoption and change management capabilities. After extensive evaluation, Netwoven was selected as the Tenant migration partner due to their global delivery model, proven migration experience, robust change management, and strong security credentials.
